

2006 World MTB Orienteering Championships

The 2006 World MTB Orienteering Championships are being held in Finland from the 8th to 14th of July and you can follow all the action online.

As the Australian team heads to Europe to begin their final preparations for this event you will be able to follow their progress online with the team website –

www.ozmtbteam.socialfx.net

The website features;

- profiles of each team member with background notes from Blake Gordon;
- a calendar of events that team members will be attending;
- a guestbook so that you can send messages of support;
- links to team sponsors and supporters;
- details about fundraising activities;
- stories posted by team members as they describe their adventures in Finland.

Get yourself up to speed by checking out the [Team jersey](#) for 2006 and read Adrian Jackson's article about [maps and terrain in Finland](#).

The action starts this weekend (10-11 June) in Finland with a [World Ranking Event](#). A very strong field is expected and it should be a good indicator of form ahead of the World Championships. Adrian Jackson and Alex Randall will both be competing. Assuming that they overcome the effects of jetlag we can expect to see some interesting results at this event.

For further enquiries – see [Contacts](#) for details.
